

MOTION BY SUPERVISOR SHEILA KUEHL

July 21, 2015

California Walks, is a statewide non-profit organization, retained by the City of Malibu in conjunction with the Pacific Coast Highway Taskforce, through a grant from the California Office of Traffic Safety. This organization will conduct interactive engagement opportunities for public input. The purpose of these interactive sidewalk pedestrian safety discussions is to evaluate pedestrian safety conditions along the PCH corridor, educate and engage community residents and affected stakeholders and develop community-driven recommendations to improve safety along the corridor. Community members will learn about pedestrian safety best practices and help identify strategies and priorities to improve pedestrian safety along PCH in Malibu. California Walks will synthesize the priorities and recommendations gathered during the project into a final recommendations report for the PCH Taskforce in September 2015.

The interactive engagements will take place on Saturday, July 25, 2015, 10:30am-12 noon at Zuma Beach and Sunday, July 26, 2015, 1:30-3pm at Surfrider Beach.

**I, THEREFORE MOVE** that the Board of Supervisors waive the parking fee for approximately 40 vehicles for California Walks members conducting the interactive outreach at Zuma Beach on July 25, 2015 and Malibu ‘Surfrider’ Beach on July 26, 2015.

S: MCC/California Walks, fee
